Status Reports and Project Submissions

Date: 16/10/2015 to 28/10/2015

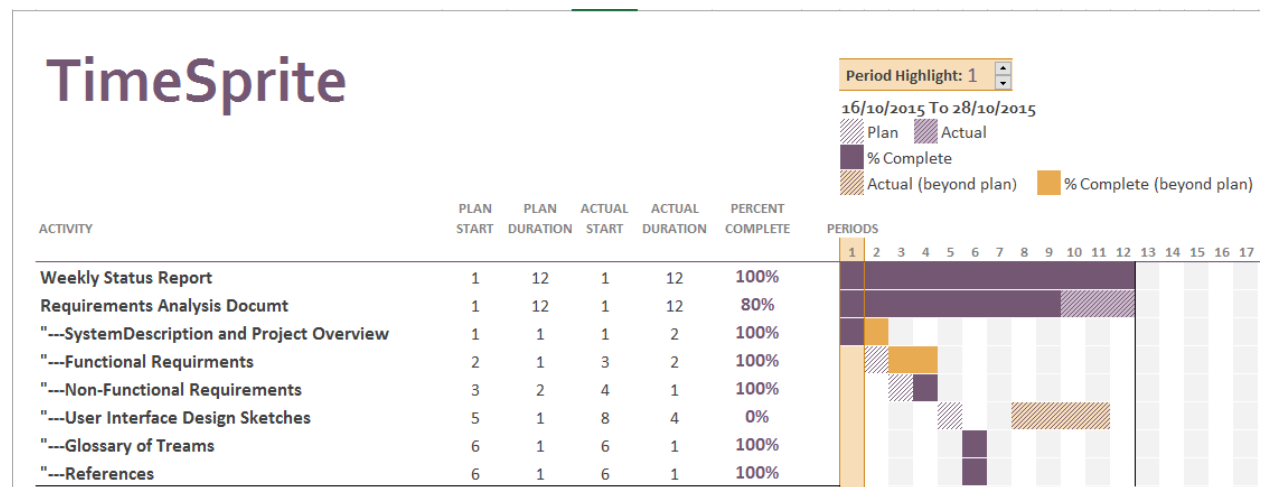

University of the Pacific
COMP 188, Senior Project, 2015 Fall ---Yunpeng Zhang

1 CONTENTS

2	Project Schedule	2
3	Currents Status.....	3
3.1	Finished Tasks	3
3.2	Falling being schedule	3
4	Plan for next work period	4
4.1	Task for next work period	4
5	Challenges and concerns.....	5
6	updated artifacts.....	6

2 PROJECT SCHEDULE

3 CURRENTS STATUS

3.1 FINISHED TASKS

- Weekly Status Report
- System Description and Project Overview
- Functional Requirements
- Non-Functional Requirements
- Glossary of Terms
- References

3.2 FALLING BEING SCHEDULE

- User Interface Design Sketches

I plan use xCode to draw user interface at begin. But Swift does not have calendar view object for App. Therefore, it spent a lot of time to set up the third party library. I am still working on it. SO I did not finished interface Sketches.

4 PLAN FOR NEXT WORK PERIOD

4.1 TASK FOR NEXT WORK PERIOD

- Finish User interface
- Finish the document
- System design documents
- Set up the third party library

5 CHALLENGES AND CONCERNS

The swift does not have Apple Calendar view, so I will install plug-in called Pods. Pods can grab library from internet. It will support to create an Apple Calendar object.

6 UPDATED ARTIFACTS

Include:

- Requirements Analysis Documents
- Weekly Status report
